Acerca de este libro

Esta es una copia digital de un libro que, durante generaciones, se ha conservado en las estanterías de una biblioteca, hasta que Google ha decidido escanearlo como parte de un proyecto que pretende que sea posible descubrir en línea libros de todo el mundo.

Ha sobrevivido tantos años como para que los derechos de autor hayan expirado y el libro pase a ser de dominio público. El que un libro sea de dominio público significa que nunca ha estado protegido por derechos de autor, o bien que el período legal de estos derechos ya ha expirado. Es posible que una misma obra sea de dominio público en unos países y, sin embargo, no lo sea en otros. Los libros de dominio público son nuestras puertas hacia el pasado, suponen un patrimonio histórico, cultural y de conocimientos que, a menudo, resulta difícil de descubrir.

Todas las anotaciones, marcas y otras señales en los márgenes que estén presentes en el volumen original aparecerán también en este archivo como testimonio del largo viaje que el libro ha recorrido desde el editor hasta la biblioteca y, finalmente, hasta usted.

—Shall be selected from those who have been, at least, two years in the U. S. service, in commission or as Cadets: *Provided, also*, that no officer now in service shall be advanced more than one grade in rank; and that no retired officer shall be appointed to a higher grade of Regimental rank than that he would have held, had he continued in service]

1. In the arrangement of names in this Dictionary, the strict alphabetical order through the entire *surnames* is observed: and where there are more than one of the same name, the order of *priority* of service is adopted;—with the single exception, that the addition or omission of a final letter, when it is a 'silent letter,' is not regarded (in such names as Browne, Clarke, McDowel, Steele, and the rest). The names commencing "Mc" are considered the same as *Mac.* So, also, the names commencing "St." are considered the same as *Saint.*

2. The names of all who have been commissioned in any *permanent* corps of the Army, *and* have been *three years* in service (including service as Cadets), are printed in this **Antique letter.**

3. * The asterisk at the surname of an officer, signifies that he is now in service. And the 'superior figure' at the first commission of a graduate from the Military Academy (thus, ^{2}bvt), indicates his standing in his class, down to No. 9.

4. The name of the State, next to the name of every Officer, thus (Mas), indicates the State from which he was *appointed;* but when next to the name of any one appointed from the Military Academy, it invariably indicates the State in which he was *born.*

5. The designation of a Regiment or Battalion of Volunteers or Militia, is generally made by the name of its Colonel or commander (rather than by its number). And, to find a more particular account of the service of any officer named, of a temporary Corps, see the statement given under the name of its commander.

6. All the statements made, in the military history of Officers, are derived from *official* records, the muster-rolls, office registers, or official reports: no entry is made without such authority. ☞ If, perchance, any error or omission be found by a person or family interested, the Editor will feel obliged by receiving a correction through the mail.
